Real Estate Investing for Nurses

## Welcome, Nurse Investor!

### The BRRRR Strategy – Build Wealth Faster

Want to buy more properties without saving for years? The BRRRR method (Buy, Rehab, Rent, Refinance, Repeat) lets you recycle your investment funds.

#### How the BRRRR Strategy Works:

- Buy a fixer-upper.
- Rehab it to increase its value.
- Rent it out for passive income.
- Refinance to pull your money back out.
- Repeat to grow your portfolio faster.

#### Quick Tip:

Look for underpriced properties in high-demand rental areas to maximize profits.

#### Success Story:

An ICU nurse used BRRRR to buy a \$180K duplex, renovate it, and refinance at \$300K. She pulled out \$60K in equity to fund her next deal!
